MESSAGE FROM THE PRESIDENT

It has been an honor and a privilege to serve as president of the Louisiana State Board of Dentistry this year. The past twelve months have been rather eventful. I am pleased to report to you that we have survived a major turnover in the composition of our membership. We have had six new members this year, including three individuals appointed by Governor Foster who where not approved by Governor Blanco. Despite this unusual turnover, the administration of three licensing examinations went off without a hitch.

The primary reason for the smooth transition and continuity is the excellent professional staff employed by the Board. They are a dedicated group of individuals. Barry Ogden, our executive director, is to be commended for his efficiency and attention to detail. He is also active on the national level and has served on panels of experts at meetings of the American Association of Dental Examiners.

Barry is assisted by Linda Feto, our Director of Licensing who very capably oversees license renewal applications and renewals among other responsibilities; Erin Conner, Caroline Perez and John Roth keep the office operating on an even keel; our investigator, Camp Morrison and his staff handle inspections and investigation of complaints; and finally, our attorney, Brian Begue, advises us on the legal ramifications of our actions and litigates disciplinary hearings. To these fine people, I extend my thanks and appreciation for their efforts.

I would also like to acknowledge the administration of LSU Dental School. Dean Eric Hovland, Dr. Gary McDonald and their staff have accommodated us in our efforts to provide a fair and valid examination.

We could not do this without their cooperation.

Our major legislative effort this year involved proposed legislation to regulate adult enteral conscious sedation. I am pleased to report that the L.D.A. task force on adult enteral sedation has succeeded in resolving the concerns of a diverse group of individuals. Legislation will be proposed which addresses the concerns of the L.D.A. while protecting the safety of the citizens of Louisiana. Congratulations to Dr. Chip Simon for putting together this task force and all the committee members from throughout the state who put forth the time and effort to produce a regulation that respects the intelligence of the individual dentist while promoting the health and welfare of our patients. Cooperation between the L.D.A and the Board is essential for the best interests of all parties.

I would like to acknowledge the hard work put in by board members. These hardworking individuals sacrifice time away from their families and offices to carry out their work. They receive $150.00 per day for board meetings and are not compensated for many hours of their time spent reviewing complaints and researching issues being considered. They don’t accept this position for the money. They do this for the love of their profession. Take a moment to thank them for their sacrifices.

Finally, I would like to thank my wife and employees for their support and tolerance of time spent on activities and concerns of the state board.

Looking to the future, I urge you to keep abreast of regulatory concerns. There is a movement to require evaluation of continuing competency of all practicing dentists. In other words, you would not only be evaluated for initial licensure, but periodic assessments of your competency would be required to maintain your license. We will keep your posted on issues as they develop.

On behalf of all of our members, I want to wish you and yours a happy holiday season and a successful new year.

Sincerely,
Charles T. McCabe, D.M.D.
President, Louisiana State Board of Dentistry

DISCIPLINARY ACTIONS

The following represents summaries of disciplinary actions taken in 2003-2004 by the Louisiana State Board of Dentistry or judgments rendered by the court in connection with civil and/or criminal proceedings and/or appellate proceedings involving registrants of this Board. In the even further judicial appeals are taken in any of these matters, they will be reviewed in the next issue of The Bulletin.

1. David L. Bell, D.D.S.
Violation- Failure to notify board of change of address in violation of Rule 304 thereby forming a violation of R.S. 37:776(A)(24).
Final disposition- Dr. Bell entered into a consent decree wherein he paid a fine in the amount of $500.00 and reimbursed the board's costs.

2. Peter J. Bennett, D.D.S.
Final disposition- Dr. Bennett entered into a consent decree wherein he paid a fine in the amount of $500.00 and completed the requisite continuing education.

Violation- Allegations that he prescribed, dispensed, or administered habit-forming or other legally controlled substances in other than a legal or a legitimate manner in violation of R.S. 37:776(A)(9).
Final disposition- Dr. Braswell entered into a consent decree wherein he paid a fine in the amount of $500.00 and reimbursed the board's costs; surrendered all controlled substance writing privileges; began a period of probation of five years; submits to random, unannounced drug screens during the period of probation.

4. Daryl S. Byrd, D.D.S.
Violation- Allegations of professional or dental incompetence in violation of R.S. 37:776(A)(7); a dental practice which fails to satisfy the prevailing acceptable standards of dental practice in this state in violation of R.S. 37:776(A)(8); and making or submitting false or deceptive claims to a patient for the purpose of obtaining monetary compensation for services rendered in violation of R.S. 37:776(A)(21).
Final disposition- Dr. Byrd entered into a consent decree wherein he paid a fine in the amount of $750.00 and reimbursed the board's costs. He underwent evaluation and remediation at Louisiana State University School of Dentistry. Dr. Byrd's license was suspended for six months with said suspension suspended pending satisfactory completion of a period of probation for three years.

5. Rita B. Christian, R.D.H.
Violation- Failure to acquire the requisite continuing education in violation of Rule 181 thereby forming a violation of R.S. 37:777 (A)(25).
Final disposition- Ms. Christian entered into a consent decree wherein she paid a fine in the amount of $500.00 and completed the requisite continuing education.

6. John P. Cottingham, D.D.S.
Violation- Failure to acquire the required continuing education in violation of Rule 181 thereby forming a violation of R.S. 37:776(A)(24).
Final disposition- Dr. Cottingham entered into a consent decree wherein he paid a fine in the amount of $1000.00 and completed the requisite continuing education.

7. Russell S. Crapanzano, D.D.S.
Violation- Failure to notify the board of his cessation of dental practice at a location in violation of Rule 304, thereby forming a violation of R.S. 37:776(A)(24).
Final disposition- Dr. Crapanzano entered into a consent decree and paid a fine in the amount of $500.00.

8. John M. Gilmer, D.D.S.
Violation- Allegations that his treatment of a patient may have been below the prevailing acceptable standards in this state in violation of R.S. 37:776(A)(9).
Final disposition- Dr. Gilmer entered into a consent decree wherein he paid a fine in the amount of $1000.00, reimbursed the board's costs, and made restitution to a patient.

Violation- Failure to notify the board of an office change of address in violation of Rule 304, thereby forming a violation of R.S. 37:776(A)(26).
Final disposition- Dr. Harkless entered into a consent decree wherein he paid a fine in the amount of $500.00 and reimbursed the board's costs as well as successfully completing the examination in Jurisprudence and Ethics.

10. John David Harrison, D.D.S.
Violation- Allegations that he abandoned patients in violation of R.S. 37:776(A)(7) regarding professional or dental incompetence; R.S. 37:776 (A)(6) in that he conducted a dental practice which failed to satisfy the prevailing acceptable standards of dental practice in this state; R.S. 37:776 (A)(6) in that he prescribed, dispensed, or administered habit-forming or other legally controlled substances in other than a legal or legitimate manner; and that he took pre-payment for services not rendered in violation of R.S. 37:776 (A)(16), conduct intended to deceive and defraud the public.
Final Disposition- Dr. Harrison entered into a consent decree wherein he surrendered his license to practice dentistry in the state of Louisiana.

11. Houston D. Hughes, D.D.S.
Violation- Allegations that he engaged in a dental practice which fell below the acceptable standard of care in this state in violation of R.S. 37:776 (A)(9); and that he engaged in false or deceptive billing in violation of R.S. 37:776 (A)(21).
Final disposition- Dr. Hughes entered into a consent decree wherein he paid a fine in the amount of $1000.00 and reimbursed the board's costs; began a period of probation for three years. (Note: At publication, Dr. Hughes is seeking a reconsideration of the sanctions rendered within this consent decree.)

12. Leonard Lewis, III, D.D.S.
Violation- Allegations that his treatment of a patient may have been below the prevailing acceptable standards in this state in violation of R.S. 37:776 (A)(9); and that he failed to maintain proper care, custody, and control of patient records in violation of Rule 318, thereby forming a violation of R.S. 37:776 (A)(24) and R.S. 40:1299.96.
Final disposition- Dr. Lewis entered into a consent decree wherein he paid a fine in the amount of $500.00 and reimbursed the board's costs as well as providing restitution to the patient.

13. Ambrose M. Martin, D.D.S.
Violation- Allegations that his treatment of a patient failed to satisfy the prevailing acceptable standards of
Final disposition: Dr. Barkade entered into a consent decree wherein he paid a fine in the amount of $500.00.

12. Frederick I. Berckner, Jr., D.D.S.
Final disposition: Dr. Berckner entered into a consent decree wherein he paid a fine in the amount of $1,000.00.

Final disposition: Dr. Scruige entered into a consent decree wherein he paid a fine in the amount of $500.00.

Final disposition: Dr. Bona entered into a consent decree wherein he paid a fine in the amount of $500.00.

15. Deborah M. Martin, R.N.
Final disposition: Dr. Martin entered into a consent decree wherein he paid a fine in the amount of $500.00.

16. John David Harter, D.D.S.
Final disposition: Dr. Harter entered into a consent decree wherein he paid a fine in the amount of $500.00.

17. Michael H. Hoffstall, D.D.S.
Final disposition: Dr. Hoffstall entered into a consent decree wherein he paid a fine in the amount of $500.00.

Final disposition: Dr. Kochansky entered into a consent decree wherein he paid a fine in the amount of $500.00.

19. Chad A. Lawrimor, D.D.S.
Final disposition: Dr. Lawrimor entered into a consent decree wherein he paid a fine in the amount of $500.00.

20. John P. Mahoney, D.D.S.
Final disposition: Dr. Mahoney entered into a consent decree wherein he paid a fine in the amount of $500.00.

Final disposition: Dr. Molina entered into a consent decree wherein he paid a fine in the amount of $500.00.

22. William Michael Molina, D.D.S.
Final disposition: Dr. Molina entered into a consent decree wherein he paid a fine in the amount of $500.00.

23. Gregory C. Mey, D.D.S.
Final disposition: Dr. Mey entered into a consent decree wherein he paid a fine in the amount of $500.00.

24. Thomas D. McClelland, D.D.S.
Final disposition: Dr. McClelland entered into a consent decree wherein he paid a fine in the amount of $500.00.

25. William M. Morgan, D.D.S.
Final disposition: Dr. Morgan entered into a consent decree wherein he paid a fine in the amount of $500.00.

26. Bobble E. Miller, D.D.S.
Final disposition: Dr. Miller entered into a consent decree wherein he paid a fine in the amount of

During the past year the board has processed over two hundred complaints from the public, a dramatic increase over previous years. I wish I could explain why we have had this increase, but there is no simple answer. Most complaints are not acted upon because they are often simply private civil matters between the patient and the dentist which do not involve violations of the Dental Practice Act. Some complaints are simply from patients wishing to avoid paying their bills. Others reflect a dissatisfaction with the dentist's treatment or behavior. The best advice I can give you is to fully communicate fees and services with the patient before commencing your treatment plan. This can be difficult when further problems are discovered after treatment has begun. Nevertheless, keep your patients advised at all times as to what your services will cost. The board does not regulate fees and probably never will, but it must investigate complaints.

If you have already reviewed the disciplinary actions in this newsletter, you will see that the great majority of sanctions rendered this year were for advertising violations which are not viewed as affecting one's ability or fitness to practice. In fact, most advertising violations are the result of not reading the Dental Practice Act before placing advertisements, or allowing office personnel to place the advertisements. Please remember the dentist is always responsible for any and all dental services advertising, no matter who places the advertisement; and advertising includes all communications with the public which includes stationery, business cards and signage, as well as yellow pages, television, and radio advertisements.

Rule 30J is the heart of the advertising regulation and should be read by all before placing any such advertisements. Last year, the board successfully defended its advertising regulations regarding Rules 30J (K) and complaints are simply from patients wishing to avoid paying their bills. Others reflect a dissatisfaction with the dentist's treatment or behavior. The best advice I can give you is to fully communicate fees and services with the patient before commencing your treatment plan. This can be difficult when further problems are discovered after treatment has begun. Nevertheless, keep your patients advised at all times as to what your services will cost. The board does not regulate fees and probably never will, but it must investigate complaints.

If you have already reviewed the disciplinary actions in this newsletter, you will see that the great majority of sanctions rendered this year were for advertising violations which are not viewed as affecting one's ability or fitness to practice. In fact, most advertising violations are the result of not reading the Dental Practice Act before placing advertisements, or allowing office personnel to place the advertisements. Please remember the dentist is always responsible for any and all dental services advertising, no matter who places the advertisement; and advertising includes all communications with the public which includes stationery, business cards and signage, as well as yellow pages, television, and radio advertisements.

Rule 30J is the heart of the advertising regulation and should be read by all before placing any such advertisements. Last year, the board successfully defended its advertising regulations regarding Rules 30J (K). Those rules relate to placing the phrase 'Family Dentistry' or 'General Dentistry' in letters larger and/or bolder and noticeably more prominent than any other services advertised in the same communication. The board has also regulated the use of the name of the dentist's office alone after one's name. The lawsuit, entitled Adrian Mike Simm, D.D.S. v Louisiana State Board of Dentistry, fell in line with other appellate court rulings which show that dentists have the right to regulate commercial free speech so as to prevent any misrepresentations to the public. The board conducted several polls which proved these two regulations go a long way in informing the public as to the true credentials of the dentist.

After this case was final, the board conducted a review of yellow pages throughout the state and found numerous violations of these rules. No doubt many were inadvertent, but, do you should be aware of them in order to avoid any problems.

Another area of confusion revolves around anesthesia permits. The board now requires all dentists to have a permit to administer oral sedation and is working with the Louisiana Dental Association to prevent any misrepresentations to the public. This area of the law is constantly evolving as more dentists obtain licenses to administer sedation. In this modality, all dentists administering oral sedation should have appropriate training and utilize the proper equipment and techniques in their offices when doing so. We hope you see the importance of this regulation.

If you have a permit to administer oral sedation, you may not administer more than one level of sedation at a time. If you already have other anesthesia permits, you would need a permit to administer oral sedation. However, if you have only a nitrous oxide permit, you would need a permit to administer pediatric oral sedation.

Presently the American Association of Dental Examiners is working to create uniform national clinical examinations for dentists and dental hygienists. It is hoped that these uniform examinations can be ready for the individual regional and state testing agencies to utilize in the near future. This will go a long way toward creating a uniform level for all dentists and dental hygienists.

There has been a controversy on the national level to simply do away with dental licensure examinations. This is the result of some states recognizing examinations from other states and will provide more mobility for all dentists and dental hygienists.

The Dental Board of Dentistry has gone on record supporting its philosophy that third party objective examinations must be continued in order to evaluate one's fitness to obtain a license to practice dentistry or dental hygiene. Furthermore, the board is of the strong opinion that live patients must be utilized in certain portions of the examination. The board does utilize typodonts for some parts of the examination, but there simply is no true replacement for a live patient.

You have probably noticed that we did not send out new Dental Practice Act booklets this year. The reason is simple. The board had no legislation this year, and, practicing fiscal responsibility, decided not to spend the money on printing and mailing new Dental Practice Act booklets. Should the board pass any legislation next year, new booklets will be sent to you.

Dr. Michael J. Montalbano from Baton Rouge will be retiring after serving two terms on the Louisiana State Board of Dentistry. Dr. Montalbano will be sorely missed. He has been a true advocate for dentistry and dental hygiene throughout his career. Dr. Montalbano has been on the cutting edge on many issues and truly served the state of Louisiana admirably.

Dr. Aubrey Baudean of Marrero has left the board after serving eight years and he is now serving on the aviation board. Dr. Baudean has always lived to serve God and country. He, too, will be missed.

Dr. Ronald Marks of Alexandria served a full ten years on the board and is now retired due to term limits. Dr. Marks was the driving force on all issues related to anesthesia while here. His hard work and dedication will also be missed.

The board welcomes five new members recently appointed by Governor Blanco. Those members are Dr. H. O. Blackwood of Shreveport, Dr. Richard Curry of Mennoce, Dr. Pamela Brown-Domme of Baton Rouge, Dr. Louis Joseph of Alexandria, and Dr. Sam S. Vinti of St. Francisville.

With kindest regards I am.

Yours truly,

C. Barry Ogden
Executive Director

IMPORTANT INFORMATION REGARDING CONTINUING EDUCATION
Proper documentation evidencing your completion of continuing education is necessary if you are audited this year. If you send inadequate documentation, it will be returned to you and will cause a delay in processing the renewal of your license. Please save yourself the time and aggravation by sending in the proper documentation the first time. If you cannot document the required number of hours, you incur a continuing education fine.

If you are unable to complete your continuing education requirements under Rules 1611 for dentists or 1613 for dental hygienists, for whatever reason, it is necessary for you to advise the board of the problem which kept you from fulfilling your requirements prior to renewing your Louisiana license. The board will not grant extensions to licensees who have not provided this information before the renewal.

ATTENTION PLEASE NOTE:
In the August 2004 "Summer Update", you were notified of the rules which will become effective October 30, 2004. Special attention should be paid to the fact that continuing education requirements are still mandatory of all licensees, the only changes are in Rules 1611 and 1615 (g) which deletes "credit will not be given for speeches at meals, such as lunches or banquets".

NUTRITION
At the December 6, 1997 Annual meeting of the Board, the Louisiana State Board of Dentistry evaluated continuing education courses relating to nutrition and determined that said courses are not to be considered clinical as they relate to obtaining continuing education requirements.
FREQUENTLY ASKED QUESTIONS

1) How many hours of continuing education am I responsible for?
   If you are a dentist, you are responsible for forty (40) hours of continuing education within the two years for which your license is current. Half of these hours must be clinical. If you are a hygienist, you are responsible for twenty-four (24) hours of continuing education within the two years for which your license is current. Half of these hours must be clinical.

2) What is considered clinical continuing education?
   Personally attended courses pertaining to the actual delivery of dental services to the patient.

3) Are video tapes, journals, and online courses considered clinical?
   NO. These are always considered NON-CLINICAL.

4) Can I carry hours forward past the two years for which I have renewed?
   NO. The hours can only be acquired within the two years in which your license is renewed.

5) Do I send originals of my continuing education documentation?
   NO. Always send a copy of all documentation evidencing completion of courses which you have listed on your renewal application. If you do not provide the correct documentation, your application will not be processed but will be returned to you for correction. All copies of continuing education documentation are retained in your personal board file.

6) Does cardiopulmonary resuscitation and First Aid courses count toward my continuing education requirement?
   Cardiopulmonary resuscitation counts for three hours of non-clinical continuing education hours. First aid courses do not count toward the continuing education requirement.

7) Should I send documentation of completed continuing education hours to the Board office along with my renewal even if I am not randomly selected for a continuing education audit?
   NO. This creates unnecessary work for you and for the Board staff.

8) Do I need to apply for a new anesthesia office permit if I move to a new office?
   YES. All locations in which nitrous oxide administration, parenteral sedation, or general anesthesia is performed must have an office permit for that level of anesthesia for which the permit has been issued. If you move to a new office, your permit from the old office does not transfer. Please contact the Board office for an anesthesia application.

9) How do I renew my anesthesia permits?
   At this time, your anesthesia permits renew automatically upon your license renewal. There is no separate fee.

10) Do I need to post my original license(s) in my office?
   YES. All Louisiana licensees holding either a dental or dental hygiene license shall display their license in full and open view for all patients to observe along with all current renewal permits of said license.

   All certificates or permits authorizing the administration of anesthesia, analgesia or sedation shall also be displayed in full and open view in close proximity to those licenses and renewal certificates required to be kept in open and full view for the public to observe.

   When licensees provide dental services in more than one facility, a copy of said license and/or certificates shall suffice in place of the original and said copy shall be displayed in full and open view for all patients to see.

   If you have lost or misplaced your original dental/dental hygiene license, please contact the Board for an affidavit of lost license. There is $50.00 fee for duplicate original licenses. There is also a $40.00 fee for duplicate renewal certificates or permits.

11) Why is the renewal fee so much?
   The renewal fee is for two years.

12) How long is my renewal license good for?
   All renewals are biannual (2 Years).

13) What is the deadline for my renewal application?
   This year the deadline is December 31, 2004.

14) Can I place my license on semi-retired or inactive status?
   NO. The Board only has an active status. If you voluntarily surrender your license due to retirement, your license no longer exists.

15) Does the Louisiana State Board of Dentistry regulate or certify dental assistants?
   NO. The Board does not regulate dental assistants. We do a certificate confirmation for the Expanded Dental Assistants only after he or she has submitted proof of the EDDA course, a high school or equivalent diploma, radiology course, current CPR card, and the $25.00 application fee.

- William P. Welch, Jr., D.D.S.
  Final disposition: Dr. Welch entered into a consent decree wherein he paid a fine in the amount of $500.00.
LOCAL ANESTHESIA PERMIT INFORMATION

The dental hygiene Local Anesthesia permit is not automatically issued upon completion of the local anesthesia course or completion of the dental hygiene program. Each dental hygienist is sent an application with their original license. The application must be completed and returned to the board office with a copy of their certificate showing satisfactory completion of the local anesthesia course. The LSU School of Dentistry and the University of Louisiana at Monroe send the Board a list of persons completing the requirements through their respective dental hygiene programs. Those persons graduating from the dental hygiene program only need to complete the application to obtain a local anesthesia permit. If you need an application, please contact the board office. If you do not have a permit, you are not authorized to administer local anesthesia.

PEDIATRIC ORAL SEDATION PERMITS REQUIRED

Under this law, licensees administering pediatric oral sedation (not including nitrous oxide) are required to apply for personal and office permits for every office where pediatric sedation will be used.

The application fee is $50.00 for a personal permit and $50.00 for each office permit.

To apply for a pediatric oral sedation permit, please send a letter along with payment as described above. Indicate your qualifications to administer oral conscious sedation on pediatric patients. Include any pertinent continuing education courses. If presently administering oral conscious sedation on children, indicate how long you have been doing this. The Board will schedule an inspection for your office where we will be checking for the following:

- A pulse oximeter—This monitors the pulse and oxygen content of blood. This is to ensure early detection of any problems while a patient is under anesthesia.
- Emergency drug kit
- A proper record keeping log—in addition to your required controlled substance log.
- A scale—Accurate weight of a child is necessary to determine appropriate dose.

Please send your request as soon as possible since we anticipate many applications and inspections. We will inspect your office as soon as possible. If you are currently using pediatric sedation, it is not necessary that you stop while your permit and inspection are pending.

Please mail your application and proper fees to the following address:

Louisiana State Board of Dentistry
One Canal Place
365 Canal St.
Suite 2680
